

# AkkuPump

The "lightweight" weighs only 750 grams

Drive motor can be quickly removed from pump mechanism for use with other pump mechanisms

For viscous media up to 500 mPas

Pump capacity 1 to 18 l/min

Stepless pump capacity adjustment

With rigid PP discharge tube or flexible soft PVC discharge tubing

Thread adapters for secure attachment to all standard containers

Pump mechanism made from polypropylene and stainless steel (Hastelloy C)

Immersion tube length 65 cm or 100 cm, diameter 25 mm
