

# Vampire Sampler

For sampling liquids in the field

Vampire in use in the environmental protection sector for sampling from narrow openings and at substantial depths.

Vampire is packed in a transport case.

Portable, battery-powered hose pump for liquids. Ideal for sampling from barrels, tanks, wells, water separators and sewage and purification systems.

- Easy to clean, the liquid only comes into contact with hose
- Independent of mains power with rechargeable battery and battery charger
- Sampling directly into the original sampling bottle
- Suction depth to 5 metres
- Also suitable for contaminated substances or substances containing particles
- Good chemical resistance
- High output volume of up to 2.0 l/minute
