

LiquiSampler

the ultra-pure sample collector for liquids

It can't be easier - with push-button

Colour coded push-buttons

Discharge funnel

With depth marks and scraping ring

LiquiSampler for liquids, according to DIN 53 242. Made of ultra-pure and chemically inert PTFE/FEP for contamination-free sampling.

Sampling from open and closed barrels, vats, tanks, silos, open waters (ponds, streams, lakes, rivers). Fits all commercially available vats and barrels with openings of at least 25 mm diameter.

Colour coded push-buttons in red, blue, green, yellow, white and black, prevents mix-ups.

Easy cleaning
All surfaces are free of pores and crevices, preventing accumulation of dirt. Only round screw threads proven in foodstuffs hygiene are used. Disassembly and cleaning is extremely simple.

- Easy-to-use one-hand push-button operation
- Transparent
- Suitable for point sampling, cross-sectional sampling and bottom sampling

Any mistakes made during sampling or sampling division will inevitably lead to incorrect analytical results!

Take samples, but do it right.

You can read how this can be done on page 56.

LiquiSampler, PTFE/FEP

Length cm	Diameter mm	Capacity ml	Price/Unit	Article No.	
60	25	150	170,00	5331-06T	N4
100	25	250	227,00	5331-1T	N4
200	25	500	315,00	5331-2T	N4

LiquiSampler made of transparent PP with red push-button

60	25	150	110,00	5331-06P	N4
100	25	250	146,00	5331-1P	N4
200	25	500	220,00	5331-2P	N4

Colour coded push-buttons 19,00 5330-149 N4
set of 5 push-buttons, yellow, green, blue, white and black (red = standard colour)

Cleaning brush 100 cm 28,20 5304-100 N4
for tubes with dia. from 15-26 mm

Safety stand 33,20 5618-100 N4
