

Tubus

the sampler for bulk goods

Simple, inexpensive sampler for free flowing bulk goods up to approx. 1 cm diameter. This makes it possible, for example, to remove hazel nuts, blends of tea, grain or similar items from large sacks.

Operation

Insert Tubus into a sack to the desired sampling depth, while keeping the collection tube closed using your hand. When you take away your hand, the sample flows directly through the open tube into the container or sampling bag beneath it.

- Choice of 2 lengths, 40 cm and 80 cm
- Also for coarse-grained bulk goods
- Stainless steel AISI 316

Length cm	Dia. mm	Price/Unit	Price/Unit of (X) units	Article No.
40	45	71,00	(10) 63,00	5382-040 N4
80	45	92,00	(10) 83,00	5382-080 N4

close-it control seals are shown on pages 92ff of this catalogue.

Samplance

Sampling lance for powders in sacks

Samplance

Sampling lance for removing small quantities of powder and granulates from paper and plastic bags.

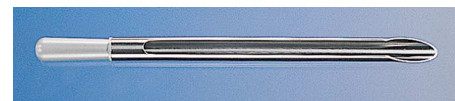

- Outer diameter from 12 to 20 mm
- Length 320 mm
- Chrome-plated brass
- Handle made of aluminium

Length mm	Capacity ml	Price/Unit	Article No.
320	100	95,00	5322-1 N4

600-1000	18,70	3620-60	N3

Milky

Sampling lance according to EN ISO 707 ¹⁾

Milky

Milk powder collector made of stainless steel 316, sterilizable. Developed especially for milk powder samples, conforms to standards of DIN and IDF (Int. Dairy Federation). The collector is inserted into bags or casks and the sample is removed using a semi-circular profile lance.

- Insertion depth 385 mm
- Total length 480 mm
- Outer diameter approx. 28 mm
- Sample volume approx. 160 ml
