

Zone Samplers

for all kinds of bulk goods, according to DIN 53 242
for fast cross-section samples

① **Multi-sampler made from anodized aluminum**, with closed chambers, color coding system, 25 mm dia.

② **Multi-sampler made from stainless steel 304**, with closed chambers, color coding system, 25 mm dia.

③ **Multi-sampler made from stainless steel 304/PTFE**, same execution as 5328-1XXX (V2A Multi sampler), but lower weight with PTFE collection chambers. With color coding system, 25 mm dia. Outer tube stainless steel, collection chambers PTFE.

④ **Uno-sampler made from stainless steel 304/PTFE**, with closed chambers, color coding system, 25 mm dia. Outer tube stainless steel, collection chamber PTFE.

⑤ **All-layer sampler made from anodized aluminum**, with open inner tube and large collection volume, without chambers. With color coding system, 25 mm dia.

① Multi-sampler Aluminium, 25 mm dia.
