

EasySampler

for sampling a wide range of bulk materials

Scratcher with inner tube

New type of sampler for taking numerous samples from all types of bulk materials quickly and easily. Emptying has been greatly simplified and in this model takes place via the tip. The advantage: the sample can be emptied directly into the sample container without having to disassemble the EasySampler, in order to obtain a mixed sample for instance. The bulk material must be free flowing or self-flowing.

- Completely made from stainless steel 316
- For free-flowing bulk materials

EasySampler has been developed in cooperation with an international chemical concern based in Ludwigshafen, Germany

EasySampler

Tube dia. mm	Total length mm	Capacity ml	Price/ Unit	Article No.
25	800	200	354,00	5360-1 N2

Special sampler for powders and granules that do not flow freely. The sample is transferred to the closable inner tube using a scraper. Sliding PTFE separators are used to divide the inner tube into different zones. The separators also prevent the sample from being mixed.

- For caked bulk materials
- Variable zones thanks to sliding PTFE separators
- Made from V4A stainless steel and PTFE
- Length 1000mm, diameter 25mm
