

Drum Wrenches/Spanners

Drum wrenches or spanners are useful tools that make it easier to tighten or loosen drum bungs.

Product Information

We stock two variations of drum wrenches as listed below.

Our Code: 800409

Description: W169 Rieke drum spanner. Light weight, durable aluminium alloy. Sparkless for use around hazardous chemicals.

Drum Bungs It Fits: Rieke drum bungs (our codes 800605, 800631, 800632)

Use this if you only stock Rieke drum bungs

Our Code: 800411

Description: T09 Trisure steel drum wrench, universal for drum bungs and cap-seals, 2" and 3/4".

Drum Bungs It Fits: All drum bungs and cap-seals as listed on our website and in our catalogue.

Use this if you have a wide range of bungs, including 2" or 3/4" sizes.
